

WHAT IS STACKING/ OVERLAPPING?

DEFINITION:

Placing more than one piece of paper, program or catalog on a page so when the page is fully extended it covers another document on that page.
page 106, Missouri STAR Events Manual

The allowable presentation elements chart details which events **allow** or **do not allow** stacking/overlapping.
page 9, Missouri STAR Events Manual

OK...

- ☆Placing two or more flat items touching each other on a page without covering content
- ☆Using decorative paper or background on a manual page and under photos
- ☆Sealing/laminating/gluing cards or other items that open and placing them on the page
- ☆Using sealed sheet protectors
- ☆Using items such as stickers, ribbon, tags, etc., as long as they are used within the event guidelines

NOT OK...

- ☆Do not place an item on the page so that when opened, the item covers another document on the page
- ☆Do not place items on the page that when opened, go outside the dimensions of the page
- ☆Do not stack items on top of each other so that they can be flipped through (such as photos)

For clarification of this, or any other STAR Events rule, please contact the State FCCLA Advisor.
